

Step by step tutorial for Counos Mobile Wallet version 1.9.0

Counos platform

Counos mobile wallet

Today, people store their cryptocurrencies and Blockchain assets in electronic wallets and at times in physical and hardware versions. But professionals are always striving to find an electronic wallet that is fast and safe, qualities that can easily be seen in Counos Mobile Wallet version 1.9.0. This electronic wallet supports well-known cryptocurrencies like Bitcoin, Litecoin, Ethereum, Bitcoin Cash and others and also the cryptocurrencies and stablecoins of Counos Platform.

If you have cryptocurrencies that are supported by <u>Counos Mobile Wallet</u>, then we recommend that you continue reading this article to find out about how to work with this app. We will provide you a tutorial from the very first step which is signing up all the way to the features of the app so that you can protect your assets in the best way possible and be able to use this safe service to receive or transfer assets.

1. Installing Counos Mobile Wallet 1.9.0

To **install** the new version of the Counos mobile wallet, you can use the buttons below to get the latest version for your operating system:

After you installed the Counos mobile wallet app, you will need an **email address** with which you can register in the app.

2. Registering

After the app is installed, in order to register in it, tap on **Create New Account**. Then you will be redirected to another page and in there you will submit the required information.

In this page, read the rules of Counos Platform and after accepting them tap **NEXT**.

Registering

After accepting the **rules of Counos Platform** you will be redirected to this page in which you need to submit your information and make sure to get a copy of them because you will need these information and passwords in the future.

In the first part, enter a valid email address.

In the second part, choose the first password (to enter the app) In the third part, choose the second password (for transactions) and keep in mind that the first and second passwords should not be the same

Important: pay attention when you are choosing your passwords, use capital letters and numbers in your passwords for more security and do not use your email password for the first and second passwords.

Registering

The main parts of the Counos Mobile Wallet 1.9.0

< COUNOS EXCHANGE

Below, you can see a list of trusted crypto exchanges in which all Counos cryptocurrencies are traded.

In the following exchanges you can buy/sell all Counos coins, e.g Counos Coin, Counos X, etc.

Exchanges: in this part you can take a look at all the exchanges that support Counos coins. By tapping on them you will be taken to the website of those exchanges. The best exchange that we can recommend for you to trade Counos Coin and other cryptocurrencies is the Counos decentralized exchange (DEX). You enter into a deal with a buyer or seller without a middleman and using the safe escrow service of Counos, and complete smart contracts in a safe environment and with high speed.

The main parts of the Counos Mobile Wallet 1.9.0

Main page: this main button will take you to the main page of the Counos Mobile Wallet 1.9.0 in which you can see the <u>list of all cryptocurrencies</u> and also the balance for each coin and all the total balance in U.S. dollar. In this page by choosing each coin you can see their specific information including balance, creating receiving address, transfer, etc.

The new version of the Counos Mobile Wallet, 1.9.0, has the <u>promotion</u> section in itself as well. In this part you can follow up on your promotion status and do the necessary steps to receive your bonus, also other items have been added to the promotion system through which you can receive more bonus by for example following Counos Platform on social media. Find out about all these steps by reading about them in <u>these page</u> and participate in the \$10,000 lottery every six months and the \$100,000 lottery every three years.

The main parts of the Counos Mobile Wallet 1.9.0

Messages: in this part you can see two types of messages; first are the messages sent from Counos Platform exclusively for you, and the second are the messages sent publically by Counos Platform for all the users who have installed the Counos Mobile Wallet 1.9.0 version.
